

- ▶ Excellent separation efficiency, capable of separating fine stone from a substantial quantity of grains, thus to assure ideal grain cleaning result;
- ▶ Excellent at separating high-density impurities such as gravel, stone, glass and metal pieces, and thus to reduce the possible wear of impurities or foreign materials to the subsequent processing equipment;
- ▶ Widely applicable to the cleaning of wheat, raw rice, rye, corn, oat, buckwheat, barley and millet in addition to the production process of beer, liquor and ethanol.

## TQSFB GRAVITY DESTONER

It is capable of separating stone, gravel, glass and other high density impurities from grains in the grain flow.

## TECHNICAL PARAMETER

**TQSFB Gravity Destoner**

Model	Capacity(t/h)	Power(kW)	Dimension(L×W×Hmm)
TQSFB60	4-8	2×0.25	1200×1400×1800
TQSFB80	6-14	2×0.25	1400×1400×1800
TQSFB100	10-16	2×0.25	1600×1400×1800
TQSFB125	13-22	2×0.3	1850×1400×1800
TQSFB150	16-28	2×0.3	2100×1400×1800
